GREAT FOR
SMALL
PROJECTS!

Synthetic Turf Remnants

Single pre-cut pieces • Prices vary by size
Ask your ISS branch manager for more info!

Great for small projects, odd shapes and lengths, patios, porches and RV use. Small play areas, pet areas, even arts and crafts! Add a touch of green synthetic turf to any small space!

Keeps turf Cool!

HYDROCHILL
TURF COOLING INFILL, 50 LB BAG

HydroChill helps cool synthetic turf with evaporative technology. As the turf surface is heated by solar radiation, moisture stored in the HydroChill turf is released. Evaporating moisture removes heat, leaving a cooler more comfortable lawn.

Control Pet Odors

ZEO FILL
TURF INFILL, 50 LB BAG

ZeoFill naturally helps to control and prevent odors from lingering around the lawn. ZeoFill is a form of zeolite.

Outdoor Lighting
