Controller Assembly Options
SPECIFICATIONS FOR ETwater™ CONTROLLER OPTIONS

Communications Equipment

DATA SERVICE PLAN OPTIONS - COMMUNICATION (First year is included with controller purchase)

205W and 204W(Panels) - Cellular Connect Controller Models only

PART#	DESCRIPTION
ETW2SP-1	**ETwater™ MANAGER SERVICE PLAN – 1 YEAR** The Controller Assembly shall be provided with a 1-year Wireless Data Service Plan for the purpose of allowing web access to the ETwater™ Manager Server and two-way communication between the server and controller.
ETW2SP-2	**ETwater™ MANAGER SERVICE PLAN – 2 YEARS** The Controller Assembly shall be provided with a 2-year Wireless Data Service Plan for the purpose of allowing web access to the ETwater™ Manager Server and two-way communication between the server and controller.
ETW2SP-3	**ETwater™ MANAGER SERVICE PLAN – 3 YEARS** The Controller Assembly shall be provided with a 3-year Wireless Data Service Plan for the purpose of allowing web access to the ETwater™ Manager Server and two-way communication between the server and controller.
ETW2SP-5	**ETwater™ MANAGER SERVICE PLAN – 5 YEARS** The Controller Assembly shall be provided with a 3-year Wireless Data Service Plan for the purpose of allowing web access to the ETwater™ Manager Server and two-way communication between the server and controller.
ETW2SP-10	**ETwater™ MANAGER SERVICE PLAN – 10 YEARS** The Controller Assembly shall be provided with a 3-year Wireless Data Service Plan for the purpose of allowing web access to the ETwater™ Manager Server and two-way communication between the server and controller.

Antenna - Communication

PART#	DESCRIPTION
ANT-ETW	**HIGH GAIN EXTERNAL MOUNT ANTENNA** The Controller Assembly shall be provided with a LoPro style dome antenna, ivory in color, for the purpose for increasing the wireless signal to a ETwater™ Controller from a network (AT&T). These will be provided as standard on all ETwater™ Controller Assemblies. This is best suited for retrofit applications.

Remote Controls and Accessories

PART#	DESCRIPTION
ETW-UA	**UNIVERSAL 9 PIN REMOTE CONTROL ADAPTER** The Controller Assembly shall be provided with a Universal 9 Pin remote control adapter connector card for the purpose of activating irrigation valves remotely. The remote-control adapter shall be capable of activating up to 48 stations. This adapter is universal and may be used with both Rain Master UA and TRC Commander remote control units.
