

ITS Hunter Lighting Transformer Assembly

Model Number: ICA6P-FX

DESCRIPTION:

This ITS ICA6P controller assembly includes the Hunter FX Luminaire lighting control system in a weather proof plastic controller enclosure. The lighting controller face panel is easily removed for servicing with the power transformer case mounted below on a stainless steel backplate. The ribbon cable from the face plate to the transformer is well hidden for a clean install. A mounting template is provided for the installation of the concrete pad.

FEATURES:

- Honeycombed Plastic Enclosure for Cooler Operation
- Keylock with #751 Key
- Dent and Scratch Proof
- More Cost Effective than Metal Boxes
- Gasketed Top and Bottom Doors for Weather Resistance
- Allows Internal Antenna Usage
- Includes Switched Power Outlet
- Includes all Brackets, Plates, and Hinges Depending on the Specific Model

DIMENSIONS:

Width: 16"
Height: 40 1/2" without conduit
Depth: 14 1/2"
