

ITS Plastic Controller Pedestal w/Rain Bird Controller

Model Number: ICA6P-RB3-12

DESCRIPTION:

The Imperial Controller Assembly (ICA6P) is a plastic controller enclosure made using rotational molding which results in a durable, long life product that is meant to withstand the harshest of weather and environmental conditions.

The unit comes standard with the Rain Bird ESP-LXMEF controller with 12 stations. Additional component such as station modules, cartridges, and communication equipment can be purchased separately and can easily be installed by the contractor.

FEATURES:

- This honeycombed enclosure runs cooler than similar products made out of stainless steel.
- Dent and Scratch Proof
- More Cost Effective than Metal
- Gasketed Top and Bottom Doors for Weather resistance
- Allows Internal Antenna Usage
- #751 Keylock Door and Optional Hasp Lock Kit for Padlock
- Pre-configured for mounting accessory items

DIMENSIONS:

Stands: 40 ½" Tall ~ 16" Wide ~ 14.5" in Depth
 Mounting Hole Pattern: 8" x 8"
 Bottom Opening: 8.5" x 5.5" for conduit, station wiring and power wires .
