

ITS Plastic Rain Bird Radio Utility Box

*Model Number: IQ-RAD-BOX **

DESCRIPTION:

The Imperial Plastic Radio Utility Box is made for those locations where there simply isn't enough room inside the cabinet of the Rain Bird controller to house the radio equipment. Typically, these situations are when the controllers are wall mounted outside either in their native plastic Rain Bird box or in a stainless steel wall mount box.

The utility box excludes components such as radio, power supply, and internal antenna. It does include 120vac power outlet, separate conduits for power and data, long data cable, and internal antenna mount for easy hookup to the Rain Bird RS cartridge.

FEATURES:

- Hinged Outdoor Plastic Box with Rain Bird logo
- Keylock with #751 Key
- Excludes Rain Bird 900Mhz Radio and Shotglass Antenna.
- Power Outlet with Transformer to Power Radio Equipment
- Dual 2 1/2' Weatherproof Conduits for Power and Data
- 9-Pin Connection Cable with Conduit

DIMENSIONS:

Height: 12 3/4" without conduit
Width: 14 1/2"
Depth: 5 3/4"
Conduit Length: 3/4" Conduit x 3' Long Each

** = IQ-RAD-BOX-OMNI with External Antenna Connector also available*
